RECORDING, USE AND PROTECTION OF PERSONAL INFORMATION

My signature in the declaration on page one acknowledges that I understand and agree to the following procedures governing how Wildcare records, uses and protects my and others' personal information.

- By law, your full name and address are included in the Wildcare membership list provided to the NSW Office of Environment and Heritage as a condition of Wildcare's fauna rehabilitation licence.
- Wildcare rescue and euthanasia-by-firearm call-out lists depend on members being swiftly contactable. These in-confidence lists used by our co-ordinators and rescue-line operators necessarily record your name, phone numbers, locality, and your preferred availability and area of operations.
- Wildcare species co-ordinators necessarily maintain lists recording the home address, email address and phone number(s) of members rehabilitating their respective species.
- Wildcare communicates with members generally via both our website and our PossumPost email list. This list and our [PossumPost Facebook Group](#) also enable members to consult each other or receive mentoring support on-line. Current Wildcare members can join the Facebook group after advising the group administrator of their name and membership number.

Please contact the Membership Secretary if you have an occupational-security requirement that might complicate or preclude the otherwise routine listing of your email address in the PossumPost list.

- A Wildcare Contact List in the password-protected, member-only, section of our website also enables members to consult, help or mentor each other by telephone. This list includes your name, phone number(s) and locality but not your street and email addresses or other details.

Please contact the Membership Secretary if you have a silent-number or an occupational-security requirement that might complicate or preclude the otherwise routine listing of your phone number.

- Wildcare policy and procedures concerning the protection of personal privacy are on our [website](#).
